DETAILED ACTION

Drawings

1. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Proper drawings, however, have not been submitted. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 12, 20, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Anderegge et al (2004/0025488).

Anderegge teaches a spinning position comprising a fiber guidance sleeve (Figure 7) defining an interior with a fiber guiding surface (at 28.1) arranged in the interior and having a deflection point (at 40), the fiber guidance sleeve configured to receive a fiber structure from a drafting system upstream (d4, d4'), introduced at an input direction forming an angle of inclination.

Allowable Subject Matter

4. Claim 32 is allowed.

Art Unit: 3765

5. Claims 13-19, 21-26, and 28-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stahlecker (20050204720) teaches what is well known in the art.
